FOREST INDUSTRY SAFETY ALERT

Close Call/Serious Incident

Location: Campbell River

Date of Incident: March 24, 2007

Details of Incident:

Logging truck was negotiating tight curve, approximately 90 percent, through a draw. Road surface was narrow and shoulders were soft. Trailer tracked off the side of the road pulling truck over on its side.

Recommended Preventative Actions:

Excavator brought in to widen road and excavate the exit end of road curve to make a better turning radius.
