## **Forest Industry Safety Hazard Alert**

### **Close Call/Serious Incident**

**Location: Quesnel**

**Date of Incident: August 21, 2007**

#### **Details of Incident:**

**Logging truck driver was injured as a result of falling off trailer tire as he was attempting to remove protruding branches from loaded truck. He sustained a cracked hip bone and will be off work for several months.**

#### **Preventative Actions:**

- 1. Before leaving log loader the truck driver should ensure that there are not any branches or logs protruding from the load.**
- 2. If there are any branches or logs protruding from the load, the log loader should be directed to remove them.**

**UNSAFE IS UNACCEPTABLE**
