

100 Submission

Version 3

2018 edition

Designed for

- Owner-operators with no field employees or contractors
- Owner-operators with no more than one office support person

Instructions

The IOO (Individual Owner-Operator) Audit Submission Package is designed to help employers satisfy the submission requirements of the IOO audit.

The IOO submission is intended for a company with:

- No field employees or contractors (other than a safety watch person)
- No more than one office support worker
- No more than 10 person-days per year of a relief / replacement worker

Completing the package

The person completing this package must be an IOO auditor. This means the person must have attended the IOO training course. In order to be eligible for a 2018 Certificate of Recognition (COR) rebate from WorkSafeBC, your company's internal auditor may need to take the COR refresher training before submitting their 2018 audit, if their IOO course was prior to 2015. The WorkSafeBC Certificate of Recognition program requires IOO auditors receive four hours of refresher training every three years.

Please carefully read every question. Each numbered question, plus your training information from the company profile is worth one point each. A successful score is 80% or 11 out of 14 points.

Submissions which score less than 70% (10 points) will be returned as unsuccessful. A full re-submission is then required from the company in order to be successful.

For further assistance contact our office at 1-877-741-1060 and ask to speak to a Safety Advisor.
