

Companies With Audits Submitted

Updated Jul 23, 2010

The following listing includes all companies, in alphabetical order, who currently have an audit submitted and active in the audit review process with the SAFE Companies program. The companies listed below may or may not be SAFE certified, since the list includes both Certification and Maintenance audits.

The list does NOT include incomplete submissions or audits received where the company has training and/or registration issues or other cases where company contact is needed to close the file.

At this point in the program, from the time you submit your audit, you should hear back within 5 weeks from receipt of audit report at BC Forest Safety Council

Audit processing is a three stage process, concluding with worker/contractor interviews for SEBASE and IOO respectively.

Company Legal Name	Trade Name / Operating as	Audit Type
